

Astor

SERVICES FOR CHILDREN & FAMILIES

NYSED 4410 Programs
Dutchess & Bronx Locations

TESTING

Astor will require testing if a child/staff is symptomatic. The agency will not provide the testing but will refer the child/staff to their primary care doctor or a testing facility. Any family or staff referred will be provided with a list of local testing locations (see attached). Additionally, the staff will be provided with contact information for the agency's occupational health provider, Emergency One (<http://eonekingston.com>).

Children or staff who are under suspicion and have been referred for testing may not return until 10 days has passed unless negative test results are provided. Any child/staff who is asked to leave the school and be tested and does not produce results must remain out for 10 days. Anyone with positive test results or suspicion of having COVID-19 cannot return until they are 24 hours fever/symptom free without the use of fever reducing medications, no matter how much time has passed.

The agency will cooperate with the Dutchess/Bronx County Department of Health by reporting all positive cases. The agency will do contact tracing to determine all persons who the individual has been in contact with within the school/agency while the DOH will complete tracing for those persons outside of Astor.
