

Astor Services for Children & Families promotes the well-being of individuals and their families through a range of programs.

Therapeutic Foster Boarding Home

Therapeutic Foster Boarding Home (TFBH) is an enhanced foster care program that offers specialized training and ongoing support to foster families and the children placed in their care.

Youth selected for TFBH’s therapeutic homes may be at risk of out of home placement in settings such as residential facilities or detention centers or need support returning to the community from these settings.

The program recruits, screens, trains foster parents and provides ongoing support while the child is in their care. Foster parents receive several weeks of intensive foster parent training to ensure they have the skills and tools to support children in the home.

Foster Child Receives:

- Case Management
- Individual & Family Therapy
- 24-hour Crisis Intervention & Support
- Psychiatric Evaluation & Treatment
- Regular Home Visits
- On-staff nurse for managing medication & medical emergencies
- Treatment that works to create permanency for the youth, including return to biological family, adoption, or independent living resources

To Participate All Youth Must Be:

- Under 21 years of age
- In the custody of a County Department of Social Services (DSS) agency

Please note that while homes are primarily located in Orange, Dutchess, and Ulster Counties, referrals are accepted from any DSS agency.
