COMMUNITY-BASED

Hudson Valley & Bronx Programs

Astor's Community-Based Behavioral Health & Prevention Services support children, adults and families who are experiencing behavioral challenges whether at home, school, or in the community.

Behavioral difficulties can create distress for all family members. Through a variety of specialty programs, our caring staff helps children, parents, siblings and beyond cope with the strain; and when necessary, help to address serious issues of sexual and physical abuse, neglect, domestic violence and substance abuse.

Many of the children we assist in this program are at risk of being removed from their homes. Astor developed individualized prevention, education and support to families through our clinics, in their homes, and in school settings.
