

Children's Care Management Services

Care Management links, supports, and oversees access to community services a child and family may need to improve overall health.

Your family works with a single care manager who brings together the best quality services needed to build a brighter future for your child. We facilitate communication between you, and your community providers to assist in the navigation of the healthcare and human service maze.

We provide compassionate and individualized care for your family while combining all your services into one clear and simple plan.

Your care manager is your family's constant ally in your efforts to achieve lasting wellbeing, prevent health crises and pave the way for success.

Referral Criteria

- Uninsured and private insurance
- Age range 0-21
- CSPOA Application
- Regardless of immigration status

Non-Medicaid Care Coordination requirements:

Youth ages 0-21 years of age, diagnosed with a Serious Emotional Disturbance (SED). The term "serious emotional disturbance" refers to a diagnosed mental health condition that substantially disrupts a child's ability to function socially, academically, and/or emotionally.
